attending in 2025.

79%
OF VISITORS
said that finding new
products and innovations
was the main reason
for attending.

“The exhibition exceeded our expectations, providing Caterpillar Australia with valuable insights and high-quality leads. The return on investment was exceptional, and will undoubtedly help drive our success in the coming year. The brand exposure we received was invaluable, and the 30 staff members who attended the Industry Networking event found it to be a rewarding experience to chat to businesses across the industry and forge new partnerships.”

Bassem Ibrahim, Technical Support Representative (ANZ), Caterpillar.

TOP VISITING OBJECTIVES

To see new products
/ innovation

To network amongst
the industry

To keep up to date
with market trends

To attend an educational
session/hear from
thought leaders

“ Our participation at AWRE 2024, as a exhibitor and sponsor, has been highly beneficial in growing our connections in the organic waste stream. It has provided the perfect platform to engage with the wider waste and recycling industry, made specifically relevant by the well executed FOGO session. The leads this year were of the highest-quality, as experienced in previous years, with an increased volume of visitors to our stand. ”

Testimonial from 2024 Survey

“ AWRE was extremely well executed with the location of each exhibitor. The event has managed to provide us with a range of views, as well as exposure to innovative ideas. The event served as a great platform for knowledge exchange and networking ”
